

**Name:** Rebecca Jergentz

**B. A. Behavioral & Physiological Biology**

San Francisco State University

**Single Subject Teaching Credential in Science**

University of Cincinnati

**M. A. Education: Administration and Supervision**

University of Phoenix

***I went to college because I wanted to!!!!!!!***

- My favorite experiences included: meeting new people, taking a wide variety of classes, living in the dorms, exploring the city, and learning how to be self-sufficient.
- The hardest things about college included: always being the youngest in the class (I was 16 when I started college), being away from my twin and trying to fit in things beyond what I needed for my degree.
- **Advice:** GO and get involved!!!! Live in the dorms, take a variety of classes in addition to the ones you need for your major and take advantage of some of the special programs/projects available. Become part of the community at large.
